

# What is it?

VIA's Rapid Transit Corridor Studies will help determine which corridors are best suited for rapid transit service, based largely on community input. *Rapid Transit* is frequent, reliable public transportation with vehicles traveling in a dedicated lane.

# What is the goal?

The goal of this meeting is to share feedback from recent community conversations and surveys and discuss how that input was used to develop a Rapid Transit Corridor draft system proposal. We are also asking for public comments about what you learn here today.
